This is a key element to the continuing success of robotics and automation today. Active infusion of innovation and entrepreneurship into technological advancement is regarded critical at this juncture to strengthen a healthy balance between research and practice as well as a healthy growth of industrial and commercial sectors in robotics and automation. In a joint event the IEEE Robotics and Automation Society and the International Federation of Robotics will therefore recognize and honor outstanding achievements of entrepreneurs in the commercialization of innovative robotic and automation technology. These achievements will be recognized in a specially organized IEEE/IFR Joint Forum on Innovation and Entrepreneurship in Robotics and Automation, which is being held in conjunction with the AUTOMATICA International Trade Fair for Automation and Mechatronics. The selected finalists will have the opportunity to present their story of the genesis of a successful innovative product in robotics and automation from its very inception to the final state of commercialization in a series of plenary lectures. The ultimate winner will be chosen by an evaluation board, consisting of distinguished individuals from industry and academia. A prestigious plaque will be awarded to each finalist and a US\$ 2,000 prize will be awarded to the winner. Applications should describe the original work that has been translated into a commercial success. The application must include statements regarding:</p> <ul style="list-style-type: none"> • description of the innovation/product/application • stages of the product genesis • novelty/uniqueness of the product • market analysis, economic viability and pathway for commercialization • sustained competitive advantage • current and future impact on and relevance to industry <p>Applications should not exceed a maximum length of 5 pages. Product descriptions and public relation material will not be accepted as an application. References and links to online material are permitted.</p> <p>Submission of Applications Please send as PDF document (< 6 MB) no later than February 29, 2012 (any time zone) to IFR Secretariat – secretariat@ifr.org.</p> <p>Schedule</p> <table border="0"> <tr> <td>2012-02-29</td> <td>Submission of applications</td> </tr> <tr> <td>2012-03-30</td> <td>Evaluation of applications and selection and notification of finalists</td> </tr> <tr> <td>2012-05-23</td> <td>Plenary lectures of the finalists and selection of the winner at the IEEE/IFR Joint Forum on Innovation and Entrepreneurship in Robotics and Automation</td> </tr> <tr> <td>2012-05-23</td> <td>IERA Award Presentation</td> </tr> </table> <p>Enquiries: Dr. Raj Madhavan Institute for Systems Research, University of Maryland College Park & Intelligent Systems Division, National Institute of Standards and Technology 100 Bureau Drive, Mail Stop 8230, Gaithersburg, MD 20899-8230, U.S.A. phone: +1 (301) 975-2865/ fax: +1 (301) 990-9688 e-mail: raj.madhavan@ieee.org</p>	2012-02-29	Submission of applications	2012-03-30	Evaluation of applications and selection and notification of finalists	2012-05-23	Plenary lectures of the finalists and selection of the winner at the IEEE/IFR Joint Forum on Innovation and Entrepreneurship in Robotics and Automation	2012-05-23	IERA Award Presentation
